Summary:

Highly skilled software developer with 5 years of experience in Python, machine learning, and data analysis. Passionate about solving complex problems and delivering high-quality solutions.

Skills:

- Programming Languages: Python, Java, JavaScript

- Frameworks: TensorFlow, PyTorch, Flask

- Tools: Git, Docker, Jenkins

- Databases: MySQL, MongoDB

- Cloud Platforms: AWS, Google Cloud

Experience:

- 1. Senior Software Developer | XYZ Tech Solutions | Jan 2020 Present
- Led a team of 5 developers to build machine learning models for predictive analytics.
- Developed APIs using Flask to integrate machine learning models into production systems.
- Optimized database queries, improving query performance by 30%.
- 2. Junior Software Developer | ABC Software Inc. | Jun 2017 Dec 2019
- Worked on data analysis projects using Python and Pandas.

- Built dashboards for visualizing key performance metrics using Tableau.
- Collaborated with cross-functional teams to deliver projects on time.

Education:

- Bachelor of Science in Computer Science | University of Example | 2013 2017
- GPA: 3.8/4.0
- Relevant Coursework: Algorithms, Machine Learning, Database Systems

Certifications:

- AWS Certified Solutions Architect
- Google Cloud Professional Data Engineer
- TensorFlow Developer Certificate

Projects:

- 1. Predictive Maintenance System
- Built a machine learning model to predict equipment failures.
- Achieved 90% accuracy using historical sensor data.
- 2. E-commerce Recommendation Engine
- Developed a recommendation system using collaborative filtering.
- Increased user engagement by 25%.

Interests:

- Open-source contributions
- Attending tech conferences and meetups
- Learning new programming languages and frameworks
